

Mapping With Melanin — Build Roadmap

Version: August 5, 2026

Status: ACTIVE — This is the source of truth for all builds.

Rules for Replit

1. **Nothing in this document is optional.** Every item is a founder-approved, committed decision. Do not defer, deprioritize, or remove any item without explicit founder authorization.
2. **Never delete prior decisions.** If a new feature appears to conflict with a prior decision, STOP and flag it to the founder. Do not silently resolve conflicts by removing the older feature.
3. **This document is append-only.** New items get added. Existing items get marked COMPLETE or MOVED (with the new build number). Items are never deleted.
4. **Store this document permanently.** It lives in `docs/product/BUILD_ROADMAP.md` in the repository. Update it as items are completed. The founder and Manus AI will reference it in every session.
5. **When in doubt, ask.** If you're unsure whether something conflicts, whether a feature should be included, or whether a decision has changed — ask the founder. Do not guess.

Build 102 — Apple Rejection Fix (SUBMITTED Aug 5, 2026)

#	Item	Status
1	Remove all IAP/subscription references	✓ COMPLETE
2	Stub RevenueCat — zero StoreKit calls	✓ COMPLETE
3	Membership screen → free features only	✓ COMPLETE
4	Billing screen → "app is free" message	✓ COMPLETE

5	UpgradeModal returns null	✓ COMPLETE
6	Remove premium trial countdown banner	✓ COMPLETE
7	Remove video quota upgrade button	✓ COMPLETE
8	Build number 101 → 102, versionCode 76 → 77	✓ COMPLETE
9	Age Rating: Parental Controls → None	✓ COMPLETE (App Store Connect)
10	App Review note submitted	✓ COMPLETE

Build 103 — Post-Approval Feature Build (Target: Aug 10-11)

Purpose: Fix data pipeline bugs, launch all tour cities, enable tester experience, fix font scaling.

#	Item	Workstream	Priority
1	Bug fix: Interests saving to DB (selectedInterests → PATCH payload → user_preferences.cultural_interests)	Data Pipeline	P0
2	Bug fix: Heritage transfer (AsyncStorage → user_preferences.diaspora_countries + preferred_ownership_types)	Data Pipeline	P0
3	Launch 16 tour cities (DC, Richmond, Raleigh/Durham, Charlotte, Columbia, Atlanta, Montgomery, Birmingham, Mobile,	City Launch	P0

	Baton Rouge, New Orleans, Houston, Allentown, Abington, Harrisburg, Chicopee)		
4	Admin tester toggle (search by email → flip isTester on/off)	Admin	P0
5	Universal demo businesses (5 test pins near tester's GPS location)	Tester Experience	P1
6	Demo business indicator ("🔧 Test Business" badge, visible to testers only)	Tester Experience	P1
7	Test data isolation (reviews on demo businesses tagged, deletable at phaseout)	Data Integrity	P1
8	Font scaling fix (text renders correctly on all device sizes)	UI	P1
9	City boundary logic: map is radius-based, not city-gated (Option C)	Map	P1
10	Home city determines Kinfolk personalization, not GPS (Option A)	Kinfolk	P1

Verification: See Build 103 Complete Instructions document for full checklist.

Build 104 — Onboarding & Personalization (Target: Aug 14-16)

Purpose: Complete the onboarding flywheel so new users from the tour get a personalized day-1 experience.

#	Item	Source Document
1	New onboarding step: "What brings you here?" (7 options, single-select)	Onboarding Flywheel Instructions
2	DB column for intent/purpose (user_preferences.onboarding_intent)	Onboarding Flywheel Instructions
3	Kinfolk first-message logic (7 personalized messages based on intent)	Onboarding Flywheel Instructions
4	Reframe identity screen: "What communities are part of YOUR story?" (not "who to support")	Onboarding Flywheel Instructions
5	One-Way Mirror implementation: Kinfolk references behavior only, never identity	Onboarding Flywheel Instructions
6	Business aggregate intelligence dashboard (anonymous counts: "47 people searching for X")	Onboarding Flywheel Instructions
7	City Story / Living Legacy page header (historical context from cultural guides)	City Story Instructions
8	City Story welcome card (first visit, dismissible)	City Story Instructions
9	City Story searchable ("Philadelphia history" returns City Story content)	City Story Instructions
10	Soft city transition prompt ("You're in Philadelphia — want to explore its Living Legacy?")	City Boundary Instructions

Build 105 — Business Profile Card & Content Hierarchy (Target: Aug 20-25)

Purpose: Implement the 4-layer business profile card that makes the introduction before the transaction.

#	Item	Source Document
1	Layer 1: Business's own story (video upload, photos, description — uploaded to MWM)	Integrity Framework § 9
2	Layer 2: Community voice ("1,001 people said this is the sharpest lineup in town" — aggregated endorsements)	Integrity Framework § 9
3	Layer 3: Cultural Ambassador content (embedded creator videos about this business)	Integrity Framework § 9
4	Layer 4: Outbound link ("Book a service" / "Visit their page" → business website/social media)	Integrity Framework § 9
5	Tier-based content upload (what each tier can upload: videos, photos, story content)	Integrity Framework § 9
6	Business story prompt at listing: "Tell your community why you do this" (video or text)	Integrity Framework § 9
7	"Put your people on" endorsement flow (prominent on all business profiles)	Integrity Framework § 9
8	Community endorsement count display ("1,001 people endorsed this")	Integrity Framework § 9
9	Dual designation system: a business CAN be a cultural landmark (both badges shown)	City Data Instructions
10	Description tab: shows research description until owner claims OR community adds insight	City Data Instructions
11	URLs on business cards (where users can learn more — from	City Data Instructions

Build 106 — Community Entrepreneur Experience (Target: Sept 1-7)

Purpose: Implement the full Community Entrepreneur tier as specified in the framework.

#	Item	Source Document
1	Community Entrepreneur listing type (always free, no advertising, organic only)	Integrity Framework § 9
2	Marketplace section (distinct from community feed — commerce ≠ conversation)	Integrity Framework § 9
3	Search display: Verified Businesses first, Community Entrepreneurs below, clearly separated	Integrity Framework § 9
4	CE capabilities: profile card, reviews, community endorsements, social media links	Integrity Framework § 9
5	CE restrictions: no advertising, no promoted listings, no multiple locations, no employees	Integrity Framework § 9
6	Upgrade journey: Kinfolk celebrates growth (never warns), upgrade is optional	Integrity Framework § 9
7	Upgrade prompt: "Your community has supported you through 100 sales!" (celebratory, not a gate)	Integrity Framework § 9
8	All history carries forward on upgrade (reviews, endorsements, sales preserved)	Integrity Framework § 9

9	Abuse guardrails: Kinfolk prompts upgrade if operating like a full business; admin review if refused	Integrity Framework § 9
10	Talent Pipeline connection: Kinfolk monitors marketplace activity for talent matches	Integrity Framework § 9
11	Story prompt at CE onboarding: "Tell your community why you do this"	Integrity Framework § 9
12	Dual profiles: simultaneous business + community member profiles, linked	Integrity Framework § 9

Build 107 — Safety & Trust System (Target: Sept 8-15)

Purpose: Implement the two-type safety reporting and dual trust scores.

#	Item	Source Document
1	Type A safety report (visitor: 7-day delay, 2 reports/60 days)	Integrity Framework § 4
2	Type B safety report (employee: 30-60 day delay, 3 reports/90 days, cryptographic reporter protection)	Integrity Framework § 4
3	Employer Trust Score (separate from Visitor Safety Score)	Integrity Framework § 5
4	Dual trust score display (businesses show both scores where applicable)	Integrity Framework § 5
5	Report flow UI (clearly distinguishes "I visited" vs "I worked here")	Integrity Framework § 4
6	Reporter protection: encrypted reporter identity, admin-only access	Integrity Framework § 4

7	Retaliation prevention: if reporter is also an employee, extra protections apply	Integrity Framework § 4
---	--	-------------------------

Build 108 — Partnership Pipeline & Allied Businesses (Target: Sept 16-22)

Purpose: Implement the 5-stage partnership pipeline and allied business tier.

#	Item	Source Document
1	Allied Business tier (distinct from Verified — community-aligned, not community-owned)	Integrity Framework § 3
2	Community Verified badge (earned through community engagement, separate from ownership badge)	Integrity Framework § 3
3	5-stage partnership pipeline (Discovery → Monitoring → Outreach → Negotiation → Active)	Integrity Framework § 6
4	Partnership tracking dashboard (admin: click-through counts, Stage 3 threshold at 500+ clicks)	Integrity Framework § 6
5	Automated partnership outreach trigger (when threshold is met)	Integrity Framework § 6
6	Partnership terms display (what the allied business committed to)	Integrity Framework § 6

Build 109 — Direct Commerce Layer (Target: Oct 1-15)

Purpose: In-app booking, tickets, and transactions for verified businesses.

#	Item	Source Document
1	Service booking (in-app, verified businesses only)	Integrity Framework § 9
2	Experience/excursion booking (with safety integration — itinerary sharing, check-in prompts)	Integrity Framework § 9
3	Event ticket sales (promoters sell directly through MWM)	Integrity Framework § 9
4	Reservation system	Integrity Framework § 9
5	"My Bookings" section (tied to community member profile)	Integrity Framework § 9
6	Kinfolk reminders ("Your excursion is in 3 days — here are safety tips")	Integrity Framework § 9
7	Rebooking flow ("You loved this barber last month — book again?")	Integrity Framework § 9
8	Transaction fee (small, comparable to Eventbrite/Square)	Integrity Framework § 9
9	Revenue reporting for businesses	Integrity Framework § 9
10	Safety integration per commerce type (Circle alerts, itinerary sharing)	Integrity Framework § 9

Build 110 — Subscriptions & Monetization (Target: Oct 15-30)

Purpose: Re-introduce IAP/subscriptions (properly this time) with StoreKit 2, sandbox-tested.

#	Item	Source Document
---	------	-----------------

1	StoreKit 2 implementation (proper, sandbox-tested)	Apple rejection fix learnings
2	Subscription tiers (Explorer, Navigator, etc.)	Original membership design
3	Paid Apps Agreement verified	Apple requirements
4	IAP products created and submitted in App Store Connect with screenshots	Apple requirements
5	Sandbox testing verified before submission	Apple requirements
6	Paywall UI (clean, non-aggressive, clearly shows free vs. paid features)	Original membership design
7	Business tier upgrades (Community Entrepreneur → Verified, free → paid features)	Integrity Framework § 9
8	Direct Commerce transaction fees active	Integrity Framework § 9

Build 111+ — Give-Back & Advanced Features (Target: Nov+)

Purpose: Scholarship infrastructure, micro-grants, mentorship matching, international expansion.

#	Item	Source Document
1	Give-back infrastructure (scholarships, micro-grants, LLC assistance)	Integrity Framework § 9
2	Mentorship matching system	Integrity Framework § 9
3	Diaspora international business contribution flow	Integrity Framework § 8
4	Pay It Forward Moment (end-of-chapter prompts)	Life Chapters Model

5	Cultural Journey tracking (opt-in Spotify Wrapped style)	Kinfolk Constitution
6	Advanced Kinfolk AI matching (talent pipeline, bidirectional prompts)	Integrity Framework § 9

Foundation Complete Criteria

The app has a "solid foundation of tweaking, not building" when ALL of the following are true:

- ☐ All tour cities launched with real business data
- ☐ Community Entrepreneur tier fully functional
- ☐ Business profile 4-layer card working
- ☐ Safety reporting (Type A + B) operational
- ☐ Onboarding flywheel spinning (data flows from user → Kinfolk → business intelligence → more businesses)
- ☐ Direct Commerce processing real transactions
- ☐ Subscriptions live and generating revenue
- ☐ Give-back infrastructure distributing resources
- ☐ Cultural Ambassador content flowing
- ☐ Kinfolk talent pipeline making matches

Estimated foundation complete date: November 2026

Document Registry (Replit Must Store All)

These documents contain the full specifications for every feature in this roadmap. They must be stored in `docs/product/` and never deleted:

Document	Contains
MWM_Integrity_Partnership_Framework.md	Master framework — all business rules, tiers, safety, partnerships, commerce

MWM_Replit_Onboarding_Flywheel_Instructions.md	Onboarding flow, one-way mirror rule, Kinfolk boundaries
MWM_Replit_City_Data_Instructions.md	Pin system, dual designations, phased seeding, JSON format
MWM_Replit_Real_vs_Demo_Data_Instructions.md	Listing statuses, real vs demo distinction
MWM_Replit_Name_Disambiguation_Instructions.md	Duplicate detection, uniqueness rules
MWM_Replit_City_Story_Instructions.md	Living Legacy page, City Story display
MWM_Replit_City_Boundary_Location_Instructions.md	Radius-based map, home city personalization
MWM_Replit_Tester_Demo_Business_Instructions.md	Demo business system, tester experience
MWM_Replit_Build_103_Complete_Instructions.md	Build 103 full implementation spec
MWM_Replit_Apple_Rejection_Fix.md	Build 102 spec (complete)
MWM_Replit_Onboarding_Bug_Fix_Authorization.md	Bug 1 + Bug 2 fix details
MWM_Tour_Cultural_Guide_Part1.md	Cultural data: Philly, DC, Richmond, Raleigh/Durham, Charlotte
MWM_Tour_Cultural_Guide_Part2.md	Cultural data: Columbia through Houston + 4 satellites
MWM_Tour_Cultural_Guide_Part3_Expansion.md	Cultural data: 36 expansion cities
MWM_Cultural_Phrases_By_City.md	Regional slang, AAVE, cultural phrases for all cities
MWM_Community_Entrepreneur_Comprehension_Test.md	7-question test (Replit passed 7/7)
MWM_Post_Apple_Build_Plan.md	Original post-approval plan (superseded by this roadmap)

Change Log

Date	Change	Authorized By
Aug 5, 2026	Document created — Builds 102-111+ defined	Founder

This document is the single source of truth for the MWM build roadmap. If it's not in this document, it's not committed. If it IS in this document, it WILL be built.
